

**CENTRAL MAINE POWER COMPANY
OBJECTION TO OFFICE OF THE PUBLIC ADVOCATE
DATA REQUEST NO. 5
DOCKET No. 2008-255**

September 24, 2008

OPA-05-03

- Q.** Exhibit I-3, page 25 of 464. The text states: “For this reason, our NTA analysis is performed using loads based upon normal weather...without consideration of extreme weather or contractual commitments.”
- a. Please confirm that the NTA assessment thus excludes all incremental benefit that may arise from the use of NTA’s to address reliability issues in any hours in which the peak load forecast exceeds the 50/50 peak load forecast.
 - b. Was any NTA analyses or assessment performed to address NTA benefits associated solely with extreme peak load reduction?
 - c. Please provide all reports, studies, analyses, internal and external communications or related information on CMP’s consideration of NTAs to assist meeting reliability needs associated with extreme peak load situations.
- A.** CMP objects to this request to the extent that it seeks material protected by the attorney-client privilege and/or the work product doctrine.

Objection Prepared and Submitted By:

Jared des Rosiers
Counsel for CMP
