RE: CENTRAL MAINE POWER COMPANY AND
PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE
Request for Certificate of Public Convenience and Necessity for the Maine Power
Reliability Program Consisting of the Construction of Approximately 350 Miles of
345 kV and 115 kV Transmission Lines ("MPRP")
Docket No. 2008-255

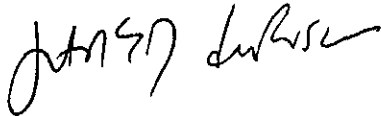

Dear Ms. Geraghty:

The September 18, 2008 Procedural Order sets the schedule for the upcoming technical conferences in the above docket. In particular, the technical conference for the Non-Transmission Alternatives ("NTAs") is set for October 9, 2008 to accommodate the schedule of one of Petitioners' NTA witnesses. This conference falls within the middle of the technical conferences on the Need and Transmission Solution set to run from the afternoon of October 8 through October 10. The witness in question is now available on October 10 and so Petitioners would be amenable to changing the schedule such that the NTAs technical conference is held on October 10. In this way, the questioning about the Need and Transmission Solution could be conducted without interruption on October 8-9, which may be more efficient and beneficial to the logical development of the record during the technical conferences.
